RECOMMENDATION LETTER

At Lyon, 2016, May 26th

Madam, sir,

Isabelle's **Alternance*** of 9 months at Conversationnel agency that I supervised have been rich in opportunities.

Isabelle has worked on numerous projects for various advertisers such as : Focal (an audio equipment company), Golden Pages, Sofinco (a credit company), the French Department of Labour, Grdf (the main gas distributor in Europe), Apicil (a mutual fund), Modes&Travaux (a magazine), CCI Paris IDF (Paris chamber of commerce and industry), CISS (a mutual fund), salon C!Print (a graphic exhibition), Afer (a mutual fund), Fabulous (3D printing consulting company),...

Isabelle gets used very quickly to her working environment and the agency processes. She demonstrated **rigor and professionalism** in managing the projects that have been given to her.

Members of the agency liked her human qualities and she **quickly fitted in with the team**. As comfortable in **teamwork** as or **fully autonomous**, she adapts at every work organisation.

I appreciate on one hand her ability to instantly understand the demands of her managers, the graphic identity of our customers and the creative briefs, and on the other, her capacity to accomplish her work with **efficiency and perfectionism**.

We noticed an improvement in her ability **to design, generate ideas and be proactive**. New experiences in artistic direction would allow her to reinforce her creative mind.

Today, she is comfortable with the Adobe Creative Suite, the use of typographical design, the photomontage, illustration, video editing... and promisingly begins web design and motion design.

These many strengths makes me believe that Isabelle will be, for your company, a brilliant member.

Please accept, Madam, Sir, the assurances of my highest consideration.
